AMERICAN NUMISMATIC ASSOCIATION

The American Numismatic Association is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has over 20,000 members from every state in the Union and many foreign countries. It is federally incorporated by an Act of Congress in 1912 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist,* without cost other than their annual dues. Membership applications should be accompanied by $5.00 for the first year's dues and $2.00 admittance fee. Annual dues are $5.00. Nonmember subscription, $6.00. Single copy, fifty cents. For application blanks, subscriptions or general information, write to the General Secretary.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 128 pages or more in each number and has subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. Medallic History of Andrew Jackson

By

Francis Worcester Doughty

A condensation by Homer C. Platt, A.N.A. No. 33942, of the article in *Leslie's Popular Monthly*, XLV, No. 5, May, 1898.

THE history of no country or public character is complete without its medallic side displayed. To the general student of American history no subject is less obscure than the medallic history of our deceased statesmen; yet there are very many earnest students who view past events largely from this standpoint. True numismatists these, and not mere collectors of coins and medals; their number is ever increasing, as attested by the multitude of coin clubs now existing – in which the study of numismatic science is the chosen theme. (Or so we trust.)

American numismatists have for many years found pleasure and profit in gathering and grouping the medals and tokens struck in honor of, or satirical allusion to, Presidents and Presidential candidates. The medals and tokens of Andrew Jackson occupy decidedly a most prominent place as well as a unique position, for a large portion of them were long in use as actual current coin, beginning with the suspension of specie payments, May 10, 1837, and probably as early as 1834, for in those days anything of the size and general appearance of the old copper passed muster as money, as indeed was the case down to the beginning of the Civil War.

The medallic history of Andrew Jackson is, therefore, of great numismatic importance, perhaps greater than that of any other President of the United States. It may be divided into five sections: 1. Actual medals struck in honor of Jackson or for other purposes. 2. The Jackson Presidentials. 3. The famous hard times tokens. 4. The Jackson storecards. 5. The Jackson copperheads. To the uninitiated, some of these terms convey little or no meaning.

Jackson medals are not only limited in number, but very scarce as compared with those of later Presidents. The Indian silver medal (by Fürst) is the most prominent example. This was a government medal, designed for presentation to such Indian chiefs as might visit the "Great White Father" in Washington, or with whom treaties of peace were to be negotiated by agents sent out for that purpose. It was issued in 1829, and thus used in pursuance of a custom established in colonial times.

Second in prominence is the bronze peace medal by the same artist, commemorating the Battle of New Orleans, struck by order of Congress, in pursuance of the resolution of February 27, 1815. The allegorical figures on the reverse are well executed, and the general appearance of the medal bold and pleasing.

The smaller medals of Andrew Jackson are all common and of slight artistic merit. One is a mortuary medal, struck in white metal, and sold on the occasion of Jackson's funeral.

Passing now to the Jackson Presidentials, or campaign tokens, a word on tokens generally is in order. Some of the Jackson tokens were actually used as money. This, however is not true of the Presidentials, but applies to the hard times series, storecards and copperheads. Presidentials were not, strictly speaking, tokens, but rather medalets, issued during the various presidential campaigns. The total

of the Jackson series is twenty-three; many are of common occurrence, others very rare in the eyes of those who look to this branch of numismatics. As a rule these pieces bear a representation of "Old Hickory" on the obverse, with allusions to the Battle of New Orleans or Jackson's financial policy on the reverse.

Unique in numismatic history is the famous hard times series of tokens which served as money in the days of Jackson and Van Buren. When Andrew Jackson began his war on the United States Bank the commercial sentiment was divided, and, as was then the custom, the medalist was called upon to assist in the varying expression of feeling.

Later, in Van Buren's time, many of these tokens were unquestionably put into circulation from purely mercenary motives, but it was not so with the earlier numbers of the series. The bitter feeling against the administration prompted the issue of the majority. A few were issued by Jackson's friends. One issue of the tokens, known as the "fat jackass," was ordered by the President's bitterest enemies in enormous quantities, and circulated as actual coins all over the country, especially in the Eastern and Middle States.

In the United States, tokens have been used extensively on two occasions. First, during the years immediately following the great financial panic of 1837, and again during the years 1863 and 1864. The latter under the name of copperheads, owing to the entire suspension of specie, formed our metallic medium of exchange for a time. In addition to these, tokens issued for advertising purposes have occasionally been used as money in this country. The Jackson "store cards," or advertising tokens, were four in number and made of brass for the use of the mercantile firms of Wolfe, Spies & Clark.

FOUR RULES FOR COIN COLLECTING

Collecting trends change, and the wise collector will do well to keep informed. The present trend, not only to collect but to hoard rolls of coins, is exhausting the supply of many issues, and is creating a false market by pushing prices upward. Manufacturers of many household items discovered a long time ago that they could double or triple their market by urging housewives to buy an extra can or bottle, or a six-pack container; and by urging men to keep an extra supply of razor blades or shaving cream on hand.

Just what will happen when these rolls are broken up and spread around – only you young collectors will ever know. Would there have been any rare coins, and would the hobby have attracted so many followers, if rolls, instead of single coins, had always been collected?

I urge you not to miss the pleasure of collecting, and studying, some particular series. Specialize! Beware of coin market manipulators, because we have them in this hobby as well as in the stock market. Beware too of alarmists who use scare headlines to "warn" about possible shortage of some issue. Study the facts for yourself, and then decide if the rumors are true or false. Forget about the possible dollar profit, if you really want to enjoy this hobby.

My collection of coins was cataloged by Abe Kosoff, and the three-day sale took place in Beverly Hills. It was a satisfying experience. The financial returns proved conclusively that a coin collector can "have his cake and eat it too." I enjoyed my coins for over twenty-five years, and then sold them at a very nice profit. If you doubt me, ask Uncle Sam, who also did very well by the sale.

Glenn Smedley had a very excellent editorial in the January, 1960, issue of *The Numismatist,* and I urge you to read it in its entirety. I quote liberally from that editorial: "Numismatists should place the study of coins, medals, tokens and paper money, and the sharing of knowledge, and the pride of ownership, and the fellowship of others, ahead of monetary gains from buying, selling and swapping."

I think he might have been correct in adding that if a collector will practice the first four rules, namely: Study the items he collects, and their backgrounds; share that knowledge with others; take pride in ownership; and enjoy the fellowships and friendships his hobby brings him – then monetary gains, dollar profits, must eventually follow.

In checking over my own experience recently, I concluded that I had unconsciously, or blindly, followed to some extent the four rules. Especially in the early days of my collecting, I read everything available on coins and currency. I wish my failing memory might permit me to retain a portion of the knowledge gained then. Possibly because I just liked to talk coins to anyone who would listen, sharing my knowledge with others was no effort. I know a few new followers of the hobby were won by talks I gave at various service clubs, and I have always enjoyed helping youngsters by giving a few Indian cents or other items.

Pride of ownership should be easy, for it is a poor numismatist indeed who does not take pride in showing his prized possessions at every opportunity. Besides the fun I had in arranging exhibits, following this rule certainly paid off in dollars for me. One of the factors that contributed to the sale in Beverly Hills was my collection of proof sets, which had been exhibited and was fairly well known from coast to coast.

The fourth rule may not seem important to the enthusiastic younger numismatists because, as the saying goes, "We grow too soon old, and too

late smart." I guess a man has to be on the wrong side of forty or fifty to appreciate the value of good friends and fellowship. But there was one man who sensed that men do crave friends. Dale Carnegie cashed in on his theory by teaching people "How to Win Friends." Yes, you can win friends, but you cannot buy them – that is, not real friends.

I had a rather wealthy partner in the theater business about forty years ago who used to say: "A man's bankroll is his best friend." But he was wrong! Dead wrong! I had this fact brought home to me very forcibly about twenty years ago by this true story.

On a cold January night on Broadway in New York City, my attention was attracted to a man carrying a "sandwich" sign draped over his bent shoulders. Perhaps I would not have noticed him or his sign if a police officer had not ordered him to move along. He shuffled off half a block, and when he thought the officer was out of sight he stopped again. I stopped too, and talked to him, and he told me his story.

As a young man he had inherited considerable money – too much money. Unattached, and with no near relatives, he had sold his share of a going business and left his home town for the big city. For a few years he lived well, if not wisely. The few friends he gathered in the bright lights were the fair weather sort. When his money was gone, his friends went with it. And now he was down and out, without a friend, he said, to know or care whether he lived or died. He was existing as a walking billboard, and by cleaning Bowery barrooms in exchange for a place to sleep.

Yes, I know he was only one of hundreds or thousands with a similar tale, and you are wondering why this one "down-and-outer" should have made an impression on me. Well, under that week's growth of beard, and in those dirty clothes, I recognized the fellow who, twenty years before, had said: "A man's bankroll is his best friend." Yes, my former partner.

Let's enjoy the fellowships we gain in numismatics. Let's collect friends, while we collect coins. Friends are one thing those dollars won't buy. – WILLIAM P. DONLON (Condensation of a talk given at a Mohawk Valley Coin Club meeting)

ANOTHER PONY EXPRESS MEDAL

Pony Express Centennial Issue IV has just been released by Heraldic Art, which has resumed its series of limited-issue sterling silver medallions.

The Heraldic Art medallions, initiated last fall, were planned to carry on the tradition of the United States commemorative half dollar series, with finely sculptured half dollar size medallions commemorating current anniversaries and events. The continuing medallion series is planned for

three separate issues in each calendar year, of strictly limited issues with pieces distributed in serially numbered packets. The plan is supported by

collectors who subscribe for a year's series, or who pre-order under a mailing label plan, issue-by-issue.

While the half dollar size and weight of these pieces followed the example of other medallions currently available, the government temporarily suspended production, pointing out that the making of any metal disc of U. S. coin size technically violates the "slug" statute, because of remotely possible use in vending machines. As a result, the Heraldic Art pieces are now being made in half dollar diameter but of 36% heavier weight than the standard half dollar. The corresponding increase in thickness is more than twice that necessary to make the medallions inadmissible to the coarsest "slot," though the pieces will continue to fit plastic holders and album pages.

The Pony Express Centennial medallion (limited to 6,000 sterling silver and 48 22-karat gold pieces) has just been mailed to subscribers to the series, and pieces are now available to new purchasers while the unsubscribed quantity lasts.

Obverse of the piece depicts a Pony Express relay rider (one of a group of eighty, the majority light, wiry teen-agers) on his hardy western mustang galloping to right. In the distance, rugged mountains convey the hazards of snow-locked passes; in the foreground, a bleached skull and dry tumbleweed suggest the difficulties of desert passage. A parade of telegraph poles advances in the background, with workmen completing the new route of rapid communication which was to sound the death-knell for the Pony Express after nineteen short but dramatic months of operation. The style of lettering used in the legends was recreated exactly from type used on an actual Pony Express poster.

Central feature of the reverse is a detailed portrayal of the special Pony Express saddle used. This was sculptured from a museum saddle, specially made to the specifications recalled by one of the riders some years ago. The two-piece saddle consists of a light vaquero frame, with a separate overskirt or *mochila*, which dropped into place over the horn and seat and had four integral stiff leather dispatch lock-boxes or *cantinas* sewn in place. The separate *mochila* made possible rapid transfer of the mail to already saddled horses at the relay stations. Above, incuse, is the famous "running pony oval" postmark used at San Francisco, bearing the date NOV 21, that of the last recorded trip in 1861. Legend surrounding, SACRAMENTO - ST. JOSEPH * 1966 MI. / 10 DAYS * .

Postpaid price of the medallions is $3.25 each, or $6.00 per pair of the same issue mailed together, with accompanying descriptive folder.

A limited quantity of Issue III, commemorating the opening of the St. Lawrence Seaway, is still available. These are pieces of the thicker module, having been restruck to replace those original thinner pieces which were on hand following subscription mailings when distribution was suspended last spring. Next issue will commemorate the golden anniversary of the Boy Scouts of America, 1910-1960, and has been rescheduled for mailing in late September. Added information may be obtained from Heraldic Art, Box 5891, Cleveland 1, Ohio.

STOLEN ITEMS

Some identifiable items stolen from Mrs. Pond are: Waterloo medal by Pistrucci, 5″ silver; very rare Brunswick-Lunenberg quintuple thaler of 1638; set of English silver coronation medals; uncut sheets of Rhode Island and New Hampshire colonial currency; many papal medals, inc. two gold of John XXIII; two $20 gold, 1917 and 1919; Boston school medals; foreign decorations; four gold Napoleon medals; rare Crucifixion medal in silver gilt; ancient Greek weight called octodrachm, size of walnut, unique; U. S. proof sets, 1937 to 1959; antique scales in flat wooden case; French pattern pieces; New England Numismatic Assn. medals; Sir William Phipps silver medal. If any of the above are offered to you and you suspect them to be part of loot, please contact Chief of Police, Winchester, Mass.

NEW OR RECENT ISSUES

Described by ERNST KRAUS

It is the important duty of *The Numismatist* to record and illustrate new coins. To accomplish this, members in the United States and abroad are invited to submit new issues to Ernst Kraus, Apt. A, 1501 E. Mt. Airy Ave., Philadelphia 50, Pa. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

Errata – On page 1185 of the August *Numismatist,* the legend on the reverse of the ten kopeck Soviet coin issued for Spitzbergen Island in 1946 is incorrectly translated. The correct translation is "Arctic coal." (Thanks to Edgar C. B. Pash, who says he has both a ten and a fifteen kopeck piece.)

A.N.A. REPRINT BOOKS

Final Notice of Special Discount Price

A complete account of this project was published in the September issue, so only the essential information is reported herein. Since time is running out for A.N.A. members only to get the first two books at reduced prices of $2.75 each, you are urged to read this and act now.

The first two volumes, containing selected articles on United States subjects from back issues of *The Numismatist,* may be ordered at a saving of $1.00 each until October 15, 1960. Only those orders postmarked on or before that date will be filled at the special A.N.A. membership price of $2.75 per book. Any member may order one copy each of the two books (or one copy of either book alone) by sending remittance payable to American Numismatic Association (do not send cash) and specifying volumes wanted, to Lewis M. Reagan, General Secretary, P. O. Box 577, Wichita, Kansas. Be sure to type or print your name and address plainly, as mailing labels will be made up from your order.

After the October 15 deadline, distribution of the books will be made by the Whitman Publishing Company through its regular dealer channels, at a retail price of $3.75 per volume. There will not be any further special price offer to present A.N.A. members.

The third and fourth volumes, to be announced later, will contain reprinted articles on Ancient and Medieval and on Modern Foreign subjects. It is expected that prices of these two volumes will be the same as the first two, and that they will be offered to A.N.A. members at a discount price upon publication. Watch for further announcements.

The two reprint titles available now are:

Selections from The Numismatist – U. S. Coins

Selections from The Numismatist – U. S. Paper Money, Tokens, Medals and Miscellaneous

Order today!

Remember, October 15 is only about two weeks away, so send $5.50 for a copy of each volume on United States subjects (or $2.75 for either book alone) right away to General Secretary Lewis M. Reagan. One article alone might sometime be worth the price of the whole book to you.

Beware – Fast operators are taking advantage of the Small Date - Large Date craze and are removing the mint mark "D" from small date 1960-D cents and selling them as small date Philadelphia cents. (Washington Numismatic Society's September newsletter)

Platinum Once Worth Less Than Gold – Certain gold mines in South America were abandoned during the eighteenth century because a large quantity of platinum was found to be mixed with the gold. Platinum in those times was worth considerably less than gold.

A new par value of the Turkish lira of nine to the U. S. dollar has been set by the Government of Turkey with International Monetary Fund approval. A par value of 2.80 liras to the dollar was first set on June 19, 1947. Subsequently the exchange system became complex with a variety of multiple currency practices. In August, 1958, an exchange reform was introduced and since then there has been a gradual move toward exchange unification at the rate of nine liras to the dollar.

Switzerland Host To IAPN General Assembly

This year the Ninth General Assembly of the International Association of Professional Numismatists was held in Switzerland, at Lausanne-Ouchy, from June 3 to 6, 1960. More than fifty people, representing twenty-four members, attended. Members from many European countries as well as several from the United States came to the Assembly which took place at the hotel du Château d'Ouchy.

The president, Jacques Schulman, Amsterdam, took the chair and Dr. Colin Martin, president of the Swiss Numismatic Society, opened the meeting. Some of the most important decisions taken by the Assembly were:

Measures to speed up and make more efficient the mutual information service on new forgeries.

The fostering of publications to spread the knowledge of numismatics to wider circles.

The next Assembly is to be organized in Rome in September, 1961, at the same time as the International Numismatic Congress.

The IAPN prize for the years 1958 and 1959 was awarded to Messrs. P. & P. Santamaria, Rome, for their catalog of the Nazzari collection.

The banquet took place at the Château d'Oron, a medieval castle, and it grouped all the members participating as well as many Swiss guests. On Sunday, an excursion by boat on the Lake of Geneva found its climax in a visit to the Château de Chillon.

NCW at W. Harding Jr. High School, Des Moines

Dear Mr. Bradfield:

For thirty years I have been teaching in Des Moines public schools and trying to interest boys and girls in coins as a hobby. This year, during National Coin Week, with the help of some young coin collectors I changed the exhibit each day in the hall display case near my classroom as follows:

Monday – Primitive items used for money.

Tuesday – Colonials.

Wednesday – Federal mintage.

Thursday – Paper currency.

Friday – Commemoratives.

The materials exhibited were the properties of our vice principal, Dr. R. R. Denny, D. D. Pointer (A.N.A. No. 35986) and my own. The entire student body and many teachers evidenced interest in the exhibit.

Organization Changes Name To Collectors of Numismatic Errors

Dr. Conway A. Bolt of Marshville, N. C., was elected President of Collectors of Mint Errors, and the organization's name was changed to Collectors of Numismatic Errors, at the A.N.A. Boston convention. Members felt that the new name was more meaningful since both paper money and coins showing errors in production are collected. Gary Young of Lafayette, Calif. is vice president, and Raymond J. Larson, 417 Hillcrest Drive, Plattsmouth, Nebr. was reelected secretary-treasurer and will continue to issue the organization's bulletin. Officer and name changes are effective next January.

The American Numismatic Association has established a special office in Dunn Loring, Va., to handle responses to its invitation.

Clippings

In the February 3, 1960 issue of the Phoenixville, Pa., *Republican*, the "Sense and Nonsense" column by Phoebe H. Gilkyson was given over to the hobby of coin collecting. Several paragraphs were taken up with

the tongue-in-cheek story of "gum money" related by Randolph Zander in a recent *Numismatist.*

Paul Crume, in his "Big D" column of the Dallas Morning *News* of February 18, 1960, tells of an FBI agent who ordered a coin from an ad, received an unsatisfactory coin and complained to the seller. The latter stated that since more than three days had elapsed, nothing could be done. The agent asked an acquaintance, a postal inspector, what he should do. The inspector said "I would explain that I hadn't time to check the coin in three days because of having to carry out my duties as FBI agent." The refund came swiftly. (Thanks to Caldwell Baker)

Israel Issues £20 Gold Coin

The Numismatic Division of the Israel Philatelic Agency in America, Inc., reports the recent issuance in Israel of a gold coin. This is the first true gold coin ever issued under the authority of an Israeli government,

and the history of coinage in Israel is indeed a long one, extending back more than 2000 years to the ancient times of the Maccabean dynasty.

This gold coin, which has a face value of twenty Israeli pounds, commemorates officially the one hundredth year of the birth of Dr. Theodore Herzl. The obverse shows his head in a panel, below is a menorah, symbol of the country, and the famous Hebrew inscription attributed to Herzl, "If you will it, then it is no legend." The reverse shows again the menorah and around the denomination written out in Hebrew "Twenty pounds Israeli." The dates 1860-1960 appear at the bottom.

This gold coin is of the same size, weight, and purity as the standard English gold sovereign. Being an official coin of the government, it is not to be confused with several gold medals that have been privately struck in recent years, purporting to be of Israeli origin.

American Political Item Collectors Meet

While the Republican National Convention met in Chicago, the American Political Item Collectors who specialize in the collecting of all political Americana which includes medals, tokens, buttons and other paraphernalia connected with Presidential campaigns, also held their convention in Chicago at the Williams Restaurant on July 24th, 1960. This was adjacent to the Conrad Hilton Hotel headquarters for the Republican National Committee and was convenient for some of the members as they were either delegates or were active in some capacity with the convention activities.

Over twenty members were present and held an election of officers as follows: president, U. I. "Chick" Harris of St. Louis, Mo.; secretary-treasurer, Art Schofield of Columbus, Ohio; and three vice presidents, Jack Putnam of Fond-du-lac, Wis., Stephen Bibler of Seattle, Wash. and Gene Dunifon of Fremont, Ohio; directors, J. Doyle DeWitt of Hartford, Conn., Charles McSorley of New Jersey, C. W. Fishbaugh of Iowa, Joe Brown of Milwaukee, and Mrs. Clyde Kimbrough of Washington.

The new president appointed Nathan N. Eglit of Chicago as Chairman of the bylaws committee to draw up a constitution and bylaws for this group. Gene Dunifon of Fremont, Ohio, presented invitations from the Chamber of Commerce and the Mayor of Fremont, Ohio, to this organization to hold its next annual meeting in that town in 1961. Joseph Fuld of Idaho and Monroe Ray, outgoing president and secretary-treasurer, were elected to the same offices as honorary president and secretary-treasurer.

Dues were set at $3.00 per year and plans are being studied for the publication of a monthly newsletter and a membership directory. Persons interested in political Americana are invited to join and may communicate with Art Schofield, Secretary-Treasurer, at 246 N. High St., Columbus, Ohio, for applications or other information.

June Pond's Home Burglarized During Boston Convention

While she was busy at the recent A.N.A. convention in Boston, Mrs. Shepard (June) Pond's nearby suburban home was ransacked and her coin collection there was taken. A complete listing of the missing items is made more difficult by the theft also of her catalog but early estimates placed the figure at $9,000 or $10,000. Evidently the thief was well posted, not only on Mrs. Pond's absence but also on the numismatic pieces she had at home, as nothing else appeared to have been stolen.

Burns; publicity, George D. Hatie; banquet and entertainment, Edward J. Why There Were Extra Hawaiian Silver Medals

Dear Mr. Bradfield:

It is my understanding that a question has been raised in regard to the issuance of the sterling silver Hawaiian medals, and you might care to print a short statement to make sure the various collectors of this country understand the situation in regard to the Hawaiian silver medals.

The Coin & Currency Institute originally advertised that the issue was limited to 2500 serially numbered pieces. Due to the delayed reaction on these pieces in the Hawaiian Islands, the original issue of 2500 pieces was completely committed in the continental United States, and none was available for sale in the Islands themselves for which, after all, the medal was made. The state officials who had authorized this medallion were very much disturbed by this and they both insisted and demanded that we furnish five hundred pieces for distribution only in the Hawaiian Islands. The Medallic Art Company felt obligated to honor this request under the circumstances, but I want to make it perfectly clear that the Coin and Currency Institute had no control over this situation and that it has lived up to its advertised statement that only 2500 pieces would be available.

I can assure you that any future commemorative issues of this type that it may be our pleasure to strike will have absolutely no variance from an advertised statement, as there was none in regard to the Alaska and Santa Fe silver medals, also recently struck by the Medallic Art Company.

Recount

Dear Mr. Bradfield:

In an effort to be facetious, "The American Dollar Bill," (*The Numismatist*, August, 1960, p. 1186) contains a small inaccuracy.

The designation ONE can be found in varying forms in twenty-seven places rather than twenty-five places on our $1.00 bill. In addition to those mentioned, the Latin word UNUM appears on the obverse of the Great Seal of the United States, and the Roman numeral I appears on the reverse of the seal.

Paper Money Enthusiasts Consider Forming Own Group

An informal dinner meeting of seventeen paper money collectors was held during the A.N.A. convention in Boston. While no definite action was started to form a specialized organization, those present look with favor upon the idea. They plan to assemble again at the Atlanta convention next year and would welcome others whose primary interest is the collecting and study of paper money. Interest may be indicated by writing to the Assistant to the Editor of *The Numismatist*.

Supply of 1959 Mint Sets Gone

The 1959 uncirculated coin sets, commonly referred to as mint sets, are no longer available as the supply of coins for the assembly of such sets is exhausted. At the time they went off sale August 31, approximately 185,000 sets had been sold.

Applications for the 1960 uncirculated coin sets may be obtained by writing to the Office of the U. S. Treasurer, Cash Division, Washington 25, D. C., on or after November 1, 1960.

PROCEEDINGS OF THE ANNUAL CONVENTION OF THE AMERICAN NUMISMATIC ASSOCIATION

The first business session of the 69th annual convention was called to order at 10:00 a.m. on August 25, 1960, in the Statler-Hilton Hotel, Boston, Mass., with President Oscar H. Dodson in the chair.

The invocation was given by Fr. Superior Francis X. Ryan.

The President introduced Arthur Sipe, a member of the Board of Governors, who presented a gavel and sounding board, made from timber taken from the first U. S. Mint building in Philadelphia. The award was made in behalf of the Philadelphia Coin Club. The President accepted this gift with sincere thanks.

The President introduced James F. Clapp, Jr., General Chairman of the convention. Mr. Clapp extended a most cordial welcome to those present and expressed the hope that this would be a most enjoyable and successful convention.

The General Chairman introduced Mr. Carroll Sheehan, Chairman of the Boston Planning Board and representing the Mayor of Boston, who delivered the address of welcome.

The President called for a brief period of silent prayer in tribute to the memory of members deceased during the year.

First Vice President C. C. Shroyer assumed the chair and invited the President to present his annual report.

ANNUAL REPORT OF THE PRESIDENT

1959 – 1960

In the year 1891, six interested collectors met in Chicago to found the American Numismatic Association. The charter membership included 61 names. I doubt whether any of our founding members, with all their *vision* and *hope*, ever conceived of an organization, international in scope, numbering nearly 20,000 members.

The 4,000 new members added to our roles in the fiscal year ending June 30 represents an *18% gain* in membership compared to an 11% increase last year. This is a *new* record and reflects a steady growth and a widespread, increasing interest in numismatics.

This sustained interest in old coins is also indicated by the organization of 92 new local clubs during the past year.

Our fiscal report indicates a strong financial position. Total income was $167,000. Total expenses amounted to $165,000, leaving a surplus of $2,000.

As most of our members are aware, the A.N.A. has never sought to gain a large fiscal surplus. The executive board operates on a *carefully controlled* budget in an effort to give maximum *value* for membership, but, at the same time, insuring that the annual report will show a small, favorable balance rather than a deficit.

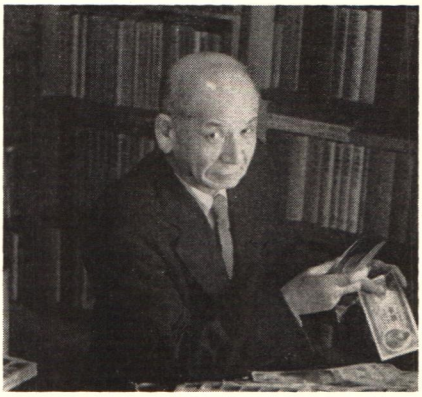

THE AMERICAN NUMISMATIC SOCIETY

Our scholarly sister organization, the American Numismatic Society of New York City, is again actively participating in the convention. The society has on display a non-competitive and highly stimulating exhibit of coins through the centuries. In addition, Miss Margaret Thompson, a distinguished member of the staff of the society and an authority on Greek classical coinage, will appear on our Thursday night educational program.

MR. Y. YAMAGA

From Tokyo has come another highly interesting exhibit.

The Japanese numismatic scholar, Mr. Y. Yamaga, an honorary member

of our association, has on display an exhibit of rare Japanese currency and currency errors.

REPRINT OF SELECTED ARTICLES FROM THE NUMISMATIST

In view of the large number of our members who do not possess back copies of *"The Numismatist,"* the executive board has authorized the reprint of the most significant articles in our journal since the first issue appeared in the year 1888. These articles will be republished by the Whitman Publishing Company of Racine, Wisconsin, in four volumes. Volume I, devoted to United States coins should be available by October of this year. Each member of the A.N.A. may purchase one copy of each volume at a reduced price of $2.75. Additional copies may be purchased from book dealers for about $3.75 each. Further information of these reprints is available on page 1335 of the September issue of *The Numismatist.*

The articles to appear in these volumes have been carefully screened by three committees of experts. Each article is authoritative and is of lasting interest.

Here is a *unique* opportunity to acquire for a nominal sum the most important contributions appearing in *"The Numismatist" over 72 years.* It is hoped that a large majority of our members will take advantage of this unusual offer.

Major credit for this worthy project goes to Charles Johnson of Long Beach, California. He has been ably assisted by many, including Dick Yeoman representing the publisher, and our own editor Elston Bradfield.

COOPERATION WITH PRESIDENT EISENHOWER'S PEOPLE-TO-PEOPLE PROGRAM

Our association has continued active support of this worthy cause designed to relieve *international tension* and promote understanding through personal contacts with peoples in other lands. Under the chairmanship of Vernon Brown of New York City, the association has developed a brochure on coin collecting to be used in contacts with numismatists abroad and in laying plans for a club exchange program between local coin clubs in the United States and those overseas.

The books for the Philippines campaign has been successfully completed under Robert MacArthur of Oakland, California, as chairman. 24 clubs and 37 individuals donated 110 important volumes to form a new library for the numismatic and antiquarian society of the Philippines. The library will replace the one destroyed during the bombing of Manila in World War II. The books will be transported to Manila by the U. S. Navy, and the American Embassy will make the presentation on behalf of our association.

THE 1960 MEMBERSHIP DIRECTORY

This subject I have tried to avoid as long as possible!

To a number of our members, the new directory is a disappointment. A very few, perhaps 20 members out of our 20,000 have expressed their disappointment in strong letters to the officers.

The membership is entitled to a full explanation of the reasoning which led to the executive board decision to publish the directory in its present form.

A committee appointed by the president made a careful investigation of four courses of action. These were:

a. To republish in its present form.

b. To republish, listing members by geographical location only.

c. To publish 5,000 copies of a geographical directory for distribution to new members only.

d. To abolish the membership directory.

A spot check of the 1957 directory revealed that one year and nine months after publication, 26% of the names or addresses were incorrect. To bring the directory up to date it would be necessary to insert 3,800 new names. These figures indicated that less than two years after publication the directory was approximately 42% obsolete.

But this was not the major factor which led to change in the directory. To publish in present form, for distribution to our entire membership, would cost $20,000. This expense would have placed the association $18,000 in the red.

Judging by our experience with the index to the last 20 volumes of *"The Numismatist,"* selling the directory at cost would not have solved the problem. In response to what appeared to be a strong demand, the index was printed at a cost of $4,000. To date, only 396 copies have been sold, about half of these going to libraries. I doubt if we have 1,000 members who would pay a dollar for a membership directory.

In view of the high printing cost, the executive board approved the publication of the directory in its present form. The association did not go into debt to put it out, it was distributed free to the membership, and we hope it will be of some use.

On this subject there *is* a bright cloud. So many dissatisfied members have thrown the new directory away that it will soon become a collector's item.

THE A.N.A. BUILDING FUND

The current organization of the A.N.A., instituted before the turn of the century, appeared to function smoothly when our membership was under 3,000. Today with nearly 20,000 members, the organization still functions in a fairly satisfactory manner, but this is due solely to the *dedication, zeal,* and *loyalty* of our professional staff – our general secretary, Lewis Reagan, residing in Kansas; our editor, Elston Bradfield located in Illinois; and our advertising manager, S. W. Freeman living in Arkansas. For their many hours of overtime, they are grossly underpaid. It is a high tribute to their ability and cooperation that they make a horse and buggy run like a Cadillac or a Lincoln.

If our present rate of growth continues, we will reach 25,000 members in 1962, and 50,000 by 1971.

To meet the needs of the future, we must complete *now* initial plans for the eventual establishment of an A.N.A. national headquarters to bring together under one roof our presently scattered professional staff.

Recognizing this need, and with faith in the future growth of the A.N.A., the executive board has approved the establishment of a building fund. The sum of $20,000 from A.N.A. fiscal reserve has been earmarked for this fund. The building fund will be administered by a permanent building fund committee consisting of the A.N.A. President, First Vice President, and Treasurer, and the two most recent former A.N.A. Presidents.

In addition to the A.N.A. funds designated for this purpose, the Whitman Publishing Company has made the *first* contribution to this fund. A check – a beautiful check for $2,000.

RENEWAL OF THE A.N.A. CHARTER

Harry Lessin, our A.N.A. legal counsel, is preparing the necessary legal papers for the renewal of the A.N.A. charter in the Federal Court of the District of Columbia. The decision to seek renewal of the charter in the District of Columbia was made after exploratory conversations with members of the Senate Judiciary Committee indicated that only organizations devoted exclusively to charity would be considered for a charter approved by the Congress.

CURRENT TRENDS IN NUMISMATICS

Most serious numismatists are *puzzled* and *appalled* by the current wild buying spree of beginning collectors who pay premium prices for 1960 United States coins. The claim has been made that in the 1960 Philadelphia Mint Lincoln cent, *microscopic* variations in the date create a *new* variety of this coin. In my opinion this claim is *sheer humbug.*

The claim has been made, by a few, that some 1960 Philadelphia Mint cents are a fine investment. In a telephone conversation yesterday, Mr. William H. Brett, the director of the Mint, stated that from January 1, 1960 through August 23, the Philadelphia Mint has produced 235,915,000 Lincoln cents. The average daily output of these coins at the Philadelphia Mint since July 5 is 4,300,000, pieces. Any statement that some of these coins constitute a fine investment is, in my opinion, *a deception.*

The concern over this new and unhealthy trend is not confined to collectors – the dealers themselves are disturbed – and would welcome a return to sanity in the coin business.

COMPLAINTS

During this past year, the association has received a *flood* of complaints from members. In cases where complaints are directed against a dealer who does not advertise in *"The Numismatist,"* or is not a member of the A.N.A., there is little the association can do. The A.N.A. is *not* a *police* organization and cannot undertake to supervise or regulate private transactions between members and dealers, or adjust petty complaints based on disagreements on coin grading, coin switching, delays in filling orders, fluctuations in price of speculative items, or other matters beyond control of the association.

Through control of advertising in *"The Numismatist"* and control of membership, the A.N.A. does attempt to maintain the highest standards of ethics in our organization. Within the limitations of its authority, the association will continue to protect the membership against the very few irresponsible dealers and to protect our member dealers against our very few irresponsible members.

FUTURE CONVENTIONS

Next year the A.N.A. will hold its second convention in the South. Plans are already underway for a cordial reception and a booming convention at the Biltmore Hotel in Atlanta, Georgia.

In August, 1962, in Detroit, the first jointly sponsored American and Canadian convention will be held. Our Canadian friends who are enthusiastically supporting this international numismatic gathering are here in Boston in large numbers, and we are delighted that they have come.

In conclusion the A.N.A. has maintained a sound fiscal policy, shows a steady growth and continues to expand the services offered to the membership.

It was moved and carried that the report of the President be accepted with thanks. The President resumed the chair and announced the appointment of the following convention committees:

Credentials: Leonel C. Panosh, Chairman

Audit: William A. Philpott, Jr., Chairman; C. B. Edwards.

Resolutions: Harry Lessin, Chairman; Jack Koch, Bert Allumbaugh, Earl C. Schill, John P. Skribiski, William J. Tronson.

Exhibit Awards: William Worth, Chairman; August Hausske, Dr. V. Clain-Stefanelli, Jackson Bennett, Dr. J. Hewitt Judd.

The President called for the report of the Credentials Committee.

REPORT OF THE CREDENTIALS COMMITTEE

The Committee has inspected the official register and finds that there is more than the minimum number of members registered to constitute a quorum. The Committee therefore declares that this assembly is empowered to transact such business as may come before the convention.

LEONEL C. PANOSH, *Chairman*

It was moved and carried that the report of the Credentials Committee be accepted.

The President presented the report of the Auditor and it was moved and carried that it be referred to the Auditing Committee.

REPORT OF CERTIFIED PUBLIC ACCOUNTANTS

The Executive Board, American Numismatic Association:

We have examined the accompanying statement of cash, investments and deposits of American Numismatic Association at June 30, 1960 and the related statement of cash receipts and disbursements for the year then ended.

The accounting records of American Numismatic Association are maintained and the statements mentioned above are prepared on a basis of cash receipts and cash disbursements; therefore, amounts receivable for membership dues, advertising and other income are not recorded in the accounts until payment is received and, similarly, liabilities for expense and capital items are not recorded in the accounts until payment is made. Also, it is the policy of the Association that capital expenditures, e.g., equipment and additions to the coin collection, are not recorded as assets.

Our examination, the scope of which is outlined below, was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other procedures as we considered necessary in the circumstances.

SCOPE OF EXAMINATION

Our examination of the cash transactions included the following:

(1) Cash balances in banks as confirmed directly to us by depositaries were reconciled with amounts shown in the accounting records of the Association. Cash on hand was counted.

(2) Receipts recorded in the accounting records were traced to deposits on the bank statements. Receipts for membership dues were tested in total by comparing recorded receipts for the year with an estimate of such receipts determined by reference to the membership roster. Advertising receipts were tested by comparing recorded receipts with amounts computed by reference to advertisements appearing in *"The Numismatist"* and with published advertising rates. Amounts shown in memorandum records as unpaid for advertising were tested by correspondence with selected advertisers. Subscription receipts were tested by tracing individual receipts to subscription expiration cards. Net proceeds from the 1959 convention were traced to the report submitted by the Convention Committee.

(3) Tests were made of cash disbursements by reference to vouchers and other supporting data. Canceled checks returned by the banks were examined and compared with the cash disbursement records.

U. S. government savings bonds were inspected by us. Transactions for the year were analyzed and traced to related entries on the bank statements. Interest receivable during the year on government bonds was computed and traced to deposits shown on the bank statements.

Deposits with U. S. Post Office Department and Trans World Airlines, Inc., were confirmed by direct correspondence.

OPINION OF CERTIFIED PUBLIC ACCOUNTANTS

Based on our examination, as previously outlined under the caption "Scope of Examination," in our opinion the accompanying statements present fairly the cash, investments and deposits of American Numismatic Association at June 30, 1960 and the cash receipts and disbursements for the year then ended and are prepared on a basis consistent with that of the preceding year.

I am happy to have this opportunity of thanking the many members that have helped make this a banner year for the Library. I also wish to thank my wife, Bernie, for her valuable assistance.

With the expansion in membership, there has been a substantial growth of our Library, both in the loaning out and the acquiring of many new books. Our new Library Catalog created a terrific interest and we came pretty close to achieving our goal of 2500 books loaned out, to members, during one fiscal year.

Number of books loaned	2432

Number of letters written	588

The following is a list of book distribution by states:

I wish to thank P. K. Anderson, Library Chairman, for his help on the new catalog.

Your librarian has answered all letters sent to the Library, but I must again remind the members that I cannot undertake to answer general inquiries, identify coins or give approximate appraisals.

REPORT OF THE CURATOR

In the fiscal year 1959-1960 the Curator received a total of 77 coins and tokens for the A.N.A. Moritz Wormser Memorial Collection which is on permanent loan to the Smithsonian Institution, Washington, D. C., and is exhibited by it in the Numismatic Department. The Association's acquisition numbers for these pieces are 2341 to 2417 inclusive, and a list of the items is attached. The coins have been forwarded to Dr. V. Clain-Stefanelli, Curator of Numismatics at the Smithsonian. Of this number, 49 specimens were purchased, as per the attached financial statement, and 28 pieces were donated. The Association is extremely grateful to the following individuals for their gracious contributions:

V. F. Torhan, Numismatic Company of America, Springfield, N. J.
E. Kraus, Philadelphia, Pennsylvania
P. Franquet, Barcelona, Venezuela
L. Benson, Davenport, Iowa
Lt. J. E. Sandrock, United States Navy
D. Hale, Ontario, California
Mr. Downing, Royal Mint, London, England
The Chase Manhattan Bank Money Museum, New York City

A separate report is herewith submitted on Medals belonging to the Association, including five acquired during the fiscal year 1959-1960.

In the past year I made a survey of the Material in the Moritz Wormser Memorial Collection which is devoted primarily to foreign coins issued in the 20th century, and recommend the following:

1. That a group of 63 coins issued from the 16th to the 19th centuries, purchased with the Robert F. King fund in July, 1927, as per the attached list, and now at the Smithsonian, be transferred to Dr. J. Hewitt Judd for the A.N.A. collection at the Joslyn Museum, Omaha, Nebraska.
2. That a Gizi Penny of Liberia now at the Smithsonian be transferred to Dr. Judd as above.
3. That three United States 5-cent pieces dated 1938 from the Philadelphia, Denver, and San Francisco mints, and a dime dated 1946 be sold.
4. That medals, now included with coin acquisitions, be transferred to a Medal Curator—(see separate report).

I have had the honor and privilege of being Curator for ten years, and during this period over 1,400 items were added to the A.N.A. collection. The work has been most enjoyable, and I am appreciative of the opportunity to serve the Association in this capacity. However, I now wish to be relieved of this position and request that the Executive Board not re-appoint me as curator.

Respectfully submitted,

VERNON L. BROWN, *Curator*

Curator's Report on Medals to June 30, 1960

Prior to 1957, the Association had very few medals and these, except for a few miscellaneous pieces, were listed with the Coin Collection. In 1957 Mrs. Dwight P. Spencer donated to the A.N.A. her late husband's collection of 180 medals, his numismatic library and coins, together with $500.00 to be used toward the expense of setting up exhibits. Since the A.N.A. did not maintain a medal cabinet, at that time, the Executive Board authorized that the Spencer medals be offered to the American Numismatic Society which selected 51 pieces for its collection. Among the remaining 129 medals retained by the Curator was a complete collection of pieces issued by The Society of Medalists. The Association desired to keep these pieces and it joined this Society so as to receive future issues. In October 1959, the Executive Board requested me to forward these 129 medals, together with the new issues of the Society of Medalists, to Mr. M. Vernon Sheldon, Chicago, Illinois who had agreed to prepare this material for exhibition at the Boston convention in August, 1960.

All of the medals belonging to the Association have now been listed separately from the coin acquisitions. They have been divided into the following categories, namely: *Medals issued by the Society of Medalists, Medals-Numismatic,* and *Medals-Miscellaneous,* and include those previously listed under coins and now being held with other A.N.A. material at the Smithsonian Institution, Washington, and at the Joslyn Museum in Omaha; medals forwarded to me in 1951 from T. R. Hammer, former Librarian of the A.N.A., and medals sent directly to Stuart Mosher at the Smithsonian in 1951-1952 for which no previous acquisition numbers had been given; and medals acquired during 1959-1960.

The medals received from Mr. Hammer and the five medals acquired during the past fiscal year 1959-1960 have been sent to Mr. M. Vernon Sheldon so that all medals belonging to the Association, except those at the Smithsonian and Joslyn museums will be in one place. Of the new acquisitions, two medals came through the Association's membership in the Society of Medalists, and the other three were donated by Mr. Robert Verity, Montreal, Canada; Mr. Andrew Scott, Medford, Massachusetts; and Mr. Dowling of the Royal Mint, London, England.

It is recommended that a Curator of Medals be appointed by the Executive Board of the Association, and that the medals now in the A.N.A. coin collection at the Smithsonian Institution be transferred to him. It is not recommended that the medals in the Joslyn Museum be transferred, at this time, as they comprise one lot of 35 Admiral Vernon medals.

Respectfully submitted,

VERNON L. BROWN, *Curator*

REPORT OF THE SECOND VICE PRESIDENT

As Second Vice President, I have been privileged to edit and publish the quarterly A.N.A. Officers' Bulletin, Volume IX during the past year. These bulletins have been mailed to all Club Representatives by the General Secretary.

Bulletin No. 3 of Volume IX was composed entirely of reports from thirty-seven club representatives, giving many new suggestions, activities, and ideas for programs. I want to especially thank the representatives who mailed in these interim reports.

Most local clubs are members of the A.N.A. We wish to extend an urgent invitation to every local, state, or regional club, not now a member, to join; and then to submit the name of an outstanding member of their club as their A.N.A. club representative. In that way, they may participate in the general exchange of information and ideas with other clubs. We have a special "Handbook" giving the duties and privileges of the Club Representatives which we will be glad to mail on request. Our secretary, Lewis M. Reagan, mails wallet size official identification cards to all Club Representatives when they are appointed by President Dodson.

The A.N.A. Club Representatives have continued to assist in those efforts necessary to make the past year the most successful and the greatest in

membership growth in the history of the A.N.A., with four thousand new members. Their enthusiasm and hard work in obtaining new members deserves the recognition and thanks of the entire association.

I have prepared a special letter which I have mailed with our Bulletin "Suggestions for Organizing a Coin Club" in answer to many inquiries. We are glad to help any group, anywhere, desiring to form a new club. There were 92 new clubs which joined the A.N.A. this year, the largest number of any year to date.

The Second Vice President wishes to thank the A.N.A. club representatives who have cooperated so whole-heartedly during the past year, and to thank President Dodson and Secretary Reagan for their continued advice and cooperation.

Respectfully submitted,

MATT ROTHERT, *Second Vice President*

EDITOR'S REPORT

Since last year's A.N.A. Portland convention, each issue of *The Numismatist* has been off the press and in the hands of most readers before the first of the month of the date of issue. Also, practically every number has been of 144 pages, sixteen pages per month more than ever before in our history. Both of these gains for the reader entail added work for the Advertising Manager and for the Editor but with the close cooperation of our printing firm, the goal has been met regularly.

For several months now, the printing has been over 23,000 copies for each number of the magazine. Members and subscribers (including about a thousand museums and libraries) in sixty countries receive the official publication of the American Numismatic Association. The Editor arranged a display of *The Numismatist* at the American Library Association's annual convention again this year, considerable interest being shown by attending librarians.

Glenn B. Smedley, named to the newly created post of Assistant to the Editor, has been of great help. Practically all club activities and club news have been his province. His prompt acceptance of assignments and his efficient handling of such correspondence as is turned over to him have been of immeasurable value. For instance, the Editor's suggestion that he do a monthly page of short notes on whatever numismatic subject he wished was enthusiastically received and acted upon. Entitled "Numismatic Vignettes," and signed "Glenn S.," his efforts have been warmly welcomed.

A special number of *The Numismatist* was that of December, 1959, of 160 pages, honoring Abraham Lincoln on the sesquicentennial of his birth. This is the third supplement to *The Numismatist* of February, 1924. The lead story was the one on Lincoln medals, tokens, etc., by Paul Ginther and Nathan Eglit.

The Editor wishes to thank all who have made the last fiscal year successful . . . contributors, A.N.A. officers and governors, S. W. Freeman, Glenn B. Smedley, and Messrs. Mayo and Howell of McCormick-Armstrong Co., for assistance freely given at all times. He is especially indebted to his wife, Jean, for her continued understanding and helpfulness . . . particularly for her annual story on doings at the national convention.

REPORT OF THE EDWARD T. NEWELL VISUAL EDUCATION COMMITTEE FOR 1959-1960

In the fiscal year 1959-60, there were 286 slide set showings. It is expected, with the recent addition of two slide sets (bringing the total number of available slide sets to 23) and with the completion of four more sets which are now being worked on by the committee members, that this number will increase. The committee firmly believes that this activity is one of the most important of the Association's services to its members. The committee also wishes to take this opportunity to extend its thanks to Custodian of Slides Michael Dolnick for his willing cooperation.

A review of the data indicates that the four most popular slide sets were:

#3	U. S. Types Half Cents to 20 Cents	31 showings
#1	Coins of Colonial America	30 showings
#2	Commemorative Half Dollars	28 showings
#17	Coins with Special Significance	27 showings

Clubs in the following states used the slide sets most:

California	49 showings	New York	18 showings
Texas	24 showings	Ohio	14 showings
Illinois	19 showings	Pennsylvania	14 showings

A.N.A. member Cyrus H. Phillips reports that the set of slides prepared for and on permanent loan to the Bank of America in California continues to be of great interest in that area. Mr. Phillips's program, entitled "Historical Background of American Coinage," is given before school and civic groups. His report for the period July 1, 1959, through June 30, 1960, is as follows:

Type of Group		*Attendance*
Individual schools (Elementary & Jr. High)	50	17,302 (teachers and pupils)
Closed circuit telecasts to twelve schools for 5th and 6th grades only	12	892 (teachers and pupils)
Individual Service Clubs	65	3,575 (adults)
Coin Clubs in California (Including California State Numismatic Assn. Spring Convention forum address)	3	595
Total Audience		22,364

Mr. McRitchie, Vice President of the Bank of America, has asked your Committee Chairman to express again his appreciation to the A.N.A. for the cooperation received in preparing and making available this slide set for the Bank of America.

During the past year your committee has been working on several new slide sets. Slide set #21, "Regular Issue Odd Shaped Coins of the Twentieth Century" (18 slides), prepared by Committee Member John Dunn, has been released. This set, of special interest to beginning as well as advanced collectors, has been enthusiastically received.

Slide set #22, "British Campaign (War) Medals" (50 slides), is representative of the collection of Committee Member Dr. John Lhotka, Jr., who also wrote the lecture notes accompanying the slides. These fifty slides of beautiful medals and colorful ribbons should provide a highly entertaining and educational program for all our member clubs.

A sound tape to accompany slide set #10, "Confederate States of America," has been prepared by Committee Member Jack Koch and is available as an alternative method of presenting the lecture notes for this slide set. This slide set, the lecture notes and the sound tape should all be of great interest to our members, especially on the eve of the 100th Anniversary of the War Between the States.

Your Visual Education Committee looks forward to another year of continuing accomplishment as four new slide sets and accompanying lecture notes are in the process of preparation. In addition, the lecture notes for the slide sets on U. S. Paper Money are being revised by A.N.A. Member Nate Gold, an outstanding authority on this subject. Your Committee welcomes any suggestion for topics suitable for slide sets. Also, the committee urges the member clubs to take advantage of the opportunity to learn more about our hobby from the slide sets which have been carefully and artistically prepared by authorities on the various aspects of numismatics. These sets are available from the A.N.A. Custodian of Slides and no fees other than the transportation costs are involved.

The Committee financial report is attached.

A.N.A. 1960 Convention Papers Committee

It was moved and carried that this report be accepted with thanks and that the papers be delivered to the Editor for possible publication.

Mr. Harry Lessin then presented the report of the Resolutions Committee.

Past President M. Vernon Sheldon, Chairman of the Exhibit Case Committee, presented the terminal report of that Committee.

EXHIBIT CASE COMMITTEE III TERMINAL REPORT

To the President and Executive Board,
American Numismatic Association:

With pleasure this Committee can at this time write its concluding Report. The re-activation of the same Committee, a third time, to manufacture exhibit cases, advertise, collect for, and pay its own contracts was authorized per your instructions following the Portland, 1959, Convention.

In that this Committee functioned as a sales unit to implement the distribution of cases to A.N.A. members as manufactured, all receipts were accredited to the manufacturer with costs of sales, advertising, and all expenses of manufacture being handled by the contractor.

Number of cases ordered manufactured in September, 1959: Five Hundred (500) standard cases, fifty (50) deep cases, for which advertising appeared in the October, December, 1959, and January, 1960, *Numismatist.*

As of this date, all of the cases under contract have been delivered and sold.

Record of Sales: Total orders received: 161; 26 clubs purchased 302 cases, the balance going to individuals and business organizations, which included banks, museums, colleges, antique dealers, etc. Eight cases were purchased by the A.N.A. as replacements, along with a quantity of maintenance parts, and decal labels to be applied at the forthcoming Boston Convention. Eight of the reverse showing mirror systems were made with the assistance of August F. Hausske and sold.

Collections for the sale of Five Hundred (500) standard cases; Fifty (50) deep cases, and Eight (8) mirror systems totaled Nine Thousand Nine Hundred and Four ($9,904.00) Dollars.

This program has been an outstanding success, by the fact of record, showing that the first cases were delivered to the Committee on December 11, 1959, and the final cases received April 26, 1960. It is evident that the demand for this type of display facility is now well established. The contracting sheet metal firm has the program in mind to continue manufacture of these cases and offer them as a stock business enterprise.

In face of the foregoing, it is suggested that the American Numismatic Association have no further interest to underwrite or give assistance to its members to acquire exhibit case facilities. With three successful exhibit case committee projects now history, it would seem to prove conclusively that there is a ready market for a commercial sheet metal concern to take over from hereon in this activity.

This Committee is happy to submit this end Report and enter a plea for a formal discharge, and, to be relieved of further duties.

Respectfully submitted,

M. H. JACKSON
I. T. KOPICKI
M. VERNON SHELDON. *Chairman*

The General Secretary, speaking in behalf of the Houston Coin Club and the Texas Numismatic Association, presented an invitation for the 1965 convention in Houston.

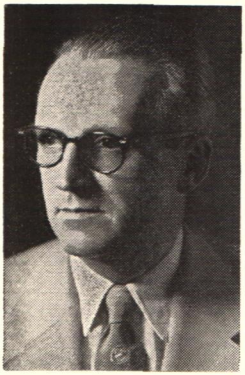

Invitations previously presented and referred to the Executive Board for future consideration are from Minneapolis, Minn. and Omaha, Nebraska, for any future available date.

All of these invitations were referred to the Executive Board.

FARRAN ZERBE MEMORIAL AWARD

The Farran Zerbe Memorial Award is made annually by the Executive Board to a member of the Association in recognition of the distinguished service, and is regarded as the highest honor that the Association can award.

Glenn B. Smedley

Farran Zerbe

This award was established in 1951 as a memorial to the late Farran Zerbe, a Past President and devoted member of the Association for many years. The award is intended to stimulate and encourage interest in the welfare of the Association, and to give public recognition of outstanding service.

The award for 1960 was made to Glenn B. Smedley, who has served the Association in many capacities and with high distinction, over a period of more than twenty years. He developed the Visual Education Program and acted as Chairman of the Visual Education Committee for many years. As a member of the Board of Governors and as First Vice President he served the A.N.A. with unfailing loyalty and devotion. In his present capacity as Assistant to the Editor, he has lightened the burdens of that office in a most substantial manner. He was also the General Chairman of the 1956 convention, and has been a member of countless committees and has successfully completed many especially assigned tasks. For this devoted service the Association is most grateful.

The award was made at the Friday session of the convention, and the plaque was presented by Mrs. Farran Zerbe.

Previous awards have been made to Past President M. Vernon Sheldon, in 1951; to Mrs. June Pond in 1952; to Past President Joseph Moss in 1953; to General Secretary Lewis M. Reagan in 1954; to Past President J. Hewitt Judd in 1955; to Richard S. Yeoman in 1956; to Burton H. Saxton in 1958 and to Louis S. Werner in 1959.

COMMUNICATIONS

The General Secretary read telegrams and letters of greeting and best wishes from Past Presidents Loyd B. Gettys, J. Henri Ripstra, V. Leon Belt, and from Dr. John F. Lhotka, Edward Fogler, Jack Ogilvie, Joseph Silverman, Margaret McAuley, Karl Brainard, Herbert Bergen, Roy Hill, and some others from Convention Bureaus and Hotel Sales Managers in other cities with invitations for future conventions.

The meeting adjourned at 11:30 a.m.

FRIDAY SESSION

The meeting on Friday, August 26, was not a business meeting but was devoted to the award of medals, plaques and other recognitions of service to the Association.

Numismatic Vignettes

■ Rumor confirmed: Secret Service DID confiscate a cent struck on a silver (dime?) planchet, at the request of Treasury officials. Reason — a silver cent has never been authorized. Precedent — seizure of the 1933 $20 gold coins which were not legally released (they were removed from the mint by an employee who substituted an equal value of other gold coins). Secret Service has not made any attempt to confiscate any ordinary misstruck coins or misprinted paper money which came out through official channels.

■ The old adage that "two heads are better than one" has a new meaning to the mint error collector who has a two-headed coin.

■ You know, of course, that you can redeem a silver certificate in silver dollars, but silver certificates account for only about 7% of the U. S. money in circulation. What about Federal Reserve notes? These notes account for about 85% of our money, and on each is inscribed: "This note is legal tender for all debts, public and private, and is redeemable in lawful money at . . ." So, what is lawful money? On Dec. 29, 1947, the Treasury Department wrote to a citizen that "the term 'lawful currency' no longer has such special significance." It returned to this man the same note which he had sent in for redemption in lawful money.

■ One of our favorite little books is J. G. Milne's **Greek Coinage,** Oxford University Press, 1931. The following is quoted from it: "The evolution of the system of marking (coins) seems to have been somewhat as follows. In the simplest form, a lump of molten metal was dropped on a flat surface and while still hot punched with a tool on the face of which a design was engraved. In order to hold the metal more firmly for the punching, the flat surface was roughened or hollowed; then occurred the idea of cutting a design on the surface, which not only served as a key for the metal, but also was reproduced in relief on the lump. The greater advantages of a design in relief over a sunk punch mark for the purpose of advertising the issuer of a lump of metal were so evident that this design became the chief feature of the work; the surface onto which the metal was dropped was now a die, and the punching tool was quite subordinate; it was little more than the means of driving home the metal into the die, and ceased to bear any distinctive design. Under these conditions the great bulk of the early electrum coinage of Ionia was produced."

■ It has been predicted that the so-called small date 1960 Philadelphia cents will be scarcer in circulated than in new condition, because so many are being put away as issued. If this comes to pass, who will be the first to offer a device guaranteed to make new coins look like circulated ones?

■ A member recently wrote us a piece of his mind regarding our "Who's Who or Who's What?" in the July issue, from which he concluded that we think collectors shouldn't buy rolls of coins. If others drew that inference, it should be rectified. Of course collectors, as well as dealers, have the right to make investments or to speculate, just as they have the right to play the stock market or to bet on the horses. But let's not confuse *numismatics* with trying to make a buck – either a fast or a slow one. Furthermore, be prepared to accept losses as well as gains, for remember that someone must contribute to the jackpots which make the winners happy. "Were you there" when 1936 proof sets were selling readily for $500 to $600 and higher? That was only three or four years ago. – GLENN S.

Combination *Alaska-Hawaii* Medal

A two-in-one medal has been issued by Clifford Mishler to commemorate the admissions of Alaska and Hawaii as states. The obverse is the Alaska side; reverse, Hawaii. The designer is Robert A. Johnson, Sidney, Iowa. The striking was done by the Robbins Company of Attleboro, Mass. The medal's diameter is $1\frac{9}{16}$ inches.

The medal is issued in eight metals, 10K rose gold (25 pieces @ $46.75, inc. federal excise tax), sterling silver (100 pieces @ $4.00, inc. federal excise tax), oxidized bronze (250 copies @ $1.25), bright bronze (250 copies @ $1.25), oxidized copper (250 copies @ $1.25), bright copper (250 pieces @ $1.25), oxidized nickel-silver (unlimited @ $1.50), aluminum with plain

finish (unlimited @ $0.75). No additional pieces will be struck in the metals of the first six listed above. All pieces, except the aluminum, are serially numbered on the edges. The gold and silver medals are also marked on the edges to indicate the metal. Sales are restricted to one gold and one silver piece to each person, and no more than two of the bronze and copper medals to a person. Unlimited quantities of the others may be purchased. For additional information, write Clifford Mishler, P. O. Box 187, Vandalia, Michigan. Service charge of 25¢ on orders less than $5.00.

[Editor's Note: As we go to press, Clifford Mishler advises that both the rose gold and sterling silver pieces have been sold. Once again we can only repeat that the striking of numismatic items, whether they be coins or medals, in very small numbers can only result in speculation and high prices.]

Numismatic Impressions — III

Upon our arrival in Israel, a few widow's mites were found in Jerusalem, so my hopes were high that perhaps a few prizes could be acquired. Our tours took us to Mount Zion, Tiberius, Nazareth, Galilee and Acre, with no numismatic success. In Haifa we met a gentleman who, as Major H. Ophar (pseudonym used during the prewar underground activities), uncovered an important hoard of coins. Present holdings were few, however.

I finally had my suspicions confirmed in Tel-Aviv — old coins are not obtainable in Israel. The interest there is very keen and the supply very low. It was my pleasure to visit the Museum Haaretz and talk at length with the numismatic director, Arie Kindler, who is making quite a reputation for himself, not only as regards Jewish coins but also in the Roman and Greek fields as well. He is in the unenviable position of not being able to use foreign exchange for the purchase of coins or books with the exception of new publications. His library is very limited and, of course, his coin acquisitions, are largely dependent on gifts. Thus far, his gifts have come from Israelis but there are "Friends of the Museum" in the United States who help. Personally I was not aware of these Friends but now that I am I cannot help but feel this is a most worthy project in which I must participate.

Later in the day Mr. Kindler and I accompanied by my son Steve visited with the dean of Israeli numismatists, the famous Leo Kadman whose books on the coinages of the Jews are the life stream of the series. This was a treat, indeed.

Curiously, we had spoken of the visitors to the Museum. Col. Joe Moss's name came up, as did that of Ed Gans and Lou Werner's (both apparently have been of big help to the museum people). Returning to the Hotel, we ran right into Rae Moss in the lobby!

A realistic approach to the money problem gives foreigners 20% premium for their currencies and helps span the gap a bit. The government hopes in this fashion to prevent black markets. Apparently the plan has been successful so far.

The impression, strong, is that Israel is hungry for coins and books. Progress is slow and dependent on outside help. The new museum to be built next year will receive the Kadman collection. In addition, the Kadman family has helped with a considerable portion of the funds required for the new building.

Our next stop was Istanbul, rich in antiquities and long a source of Byzantine, Roman and Greek coins. Present monetary regulations make legitimate trading almost impossible. The Turkish lira is being controlled at nine to the dollar but there are, apparently, various shades of black markets. Frequently twelve to the dollar are offered for greenbacks. As much as fifteen to the dollar may be obtained in Greece.

My visit to Istanbul came about seven weeks after the *coup d'etat* which placed the military in power. The control of foreign currency is a phobia and contributes to the difficulty in making agreements. The American wants to use dollars but cannot — he must convert to liras at nine to the dollar. The Turk cannot take dollars which he knows can be converted at twelve or even fifteen to the dollar. He must take liras. Accordingly, if the Turkish seller wants 130 liras for a coin, and an American wants to pay $10.00 for it, both can get good deals — except they can't trade that way. The Turk can only take liras and the American would have to convert almost $15.00 to reach the 130 liras. On the other hand, the Turk could take the $10.00 and convert at thirteen or fifteen and be ahead.

Declarations must be made of all currencies and travelers checks when entering Turkey. When an exchange is made, the traveler gets a slip from the authorized money changer. These slips must be presented when leaving the country. Although currency control is general throughout the East, that of Turkey seems more stringent than that in other countries.

Modern gold coinage of Turkey is plentiful and can be acquired at fair prices, even at the official exchange rate. So much of it is around, however, that one hasn't the incentive to acquire it. One has the impression that upon a reasonable return to freedom of action, Istanbul could be a wonderful source of ancient coins.

It so happens that despite all these remarks, when we left Istanbul, we were asked absolutely nothing about our currency nor were any of our exchange slips examined, but — the regulations are still there! — A. KOSOFF

Gold Coin Prices in Germany – The price of a 20 mark gold coin in Frankfurt, which in early June had been DM 55, rose to DM 61 at the beginning of July and then remained at this high level. This price rise is not to be interpreted as in any way an indication of either an actual or an anticipated reduction in the purchasing power of the deutsche mark. The price of bar gold has remained unchanged in Germany, and lately prices for foreign gold coins have tended to weaken slightly. The high price of the 20 mark pieces reflects their genuine scarcity or their value as collectors' items. *Handelsblatt,* Düsseldorf, Germany, July 18, 1960

– The Editor

An attendance of 65, and a fine talk on "Pattern Coins" by George Justus made the June meeting of **Santa Barbara Coin Club** one of the best on record. George's talk gave many of us a clear understanding of this series of U. S. coins which is not popularly collected, mostly because of the rarity and high price of most patterns. He explained that patterns are issued to test proposed designs for striking in various metals, satisfactory appearance and how the design will stand up in circulation. Among coins not always thought of as patterns are the 1856 flying eagle cent and the $4 gold stella. We could learn about patterns by borrowing books from the A.N.A. Library and from Dr. Judd's new book on the subject. (Editor's note: See the announcement in this issue of the A.N.A. Reprint Books.) Committees were appointed and plans completed for the second Coinarama Sunday, August 7. — GWEN SENTIS, Sec.

The **Soy City Coin Club** held its second annual banquet meeting on June 5, in the Elks Club in Decatur, Ill., with 100 in attendance. Officers were elected as follows: Richard Palmer, president; George Nalefski, vice president; George Newlin, treasurer; Irene DeZarn, secretary. Communications should be addressed to the secretary at 119 Pennsylvania Drive, Decatur, Ill. — IRENE DEZARN, Sec.

At its June meeting, the **Waterloo (Ontario) Coin Society** heard a talk on "Canadian Die Breaks and Varieties" by Ed Knight, President of **Metropolitan Coin Club.** He illustrated the talk with chalk drawings of die breaks and varieties from the reign of Queen Victoria to date, bringing out many things unknown to most collectors. He suggested we work on two collections – one of proofs and the other of die breaks and varieties. His opinion of the Arnprior variety of 1955 silver dollar is that it resulted from gradual wear of the die, rather than that it was a special minting. The excellent response and number of junior members gained from last year's summer playground activities prompted us to coöperate again this year with the Waterloo Recreation Commission. Frank Uttley was appointed convener again and has assembled considerable new material to interest junior numismatists. Due to increased membership and attendance, we have arranged to meet at the Waterloo Public Library hereafter. A gold sovereign was awarded to Les Marks for the best design submitted for the Club crest. — ROD R. REKOFSKI, Sec.

The **Atlanta Coin Club** was happy to welcome Matt Rothert, A.N.A. Second Vice President and honorary member of our Club, to our July 12 meeting. In keeping with our monthly educational programs, Bob Davis gave a talk on Confederate money, a type set of which was displayed by Roy Payne. Cecil Maddox of Athens, Georgia, displayed a rare picture, "Confederate Note Memorial." — MRS. EDWIN HARRISON, Sec.

Three new members were admitted to the **Arkansas Valley Coin Club** at its June 14 meeting. President Boraker reported on plans for the **Colorado-Wyoming Numismatic Association** convention to be held Sept. 30-Oct. 2 in the Alamo Hotel in Colorado Springs. Club Librarian Tom Pinnell read a paper on the coins and tokens of Hawaii. Exhibits were by Herman Boraker, M. L. Heinzman, Al Overton and E. C. Trechter. — MRS. HERMAN L. BORAKER, Sec.

In spite of hot weather and vacations attendance was sixty at the July 8 meeting of **Oak Park Coin Club.** We had the usual fine quality of exhibits, and most exhibitors gave short talks about their material. Dennis Anderson – Lincoln cent set and $5, $10, $20 gold coins; Harry Flower – Spanish "dollars" counterstamped and overstruck for use in England; Sal T. Genualdi – 1956 "dot" Canadian dime and 1958 "dot" Canadian half dollar; I. T. Kopicki – third charter, $100 National Bank note; Wm. J. Kraleski – complete set of rehabilitation tokens of Alaska, 1935-36; Harold Mareska – 1918/17-D nickel found in change while in a hospital recently! Frank Olenicki – types of U. S. coins; Glenn Smedley – proof vignettes and advertising cards by Western Bank Note & Engraving Co., Chicago, 1864-1911. — SAL T. GENUALDI, Sec.-Treas.

At the July 18 meeting, a resolution was passed that we protest to our Congressman and to the Mint Director about the distribution of 1960 proof sets, which resulted in disappointment to many small collectors. Officers of this Club are: Donald J. Crosby, president; Fred Houston, vice president; G. G. (Jerry) Davis, treasurer. – WARREN S. CLAUNCH, Sec.

Some one hundred and fifty registered at the tenth annual convention of the **South Dakota Coin and Stamp Club** June 25 and 26 at the Sheraton Cataract Hotel in Sioux Falls. Convention Chairman Paul Seffens, Jr., conducted the auction, and there were twenty-four dealers bourse tables. In the exhibits, Best-of-Show was awarded to the **Sioux City (Iowa) Stamp Club.** Other award winners were: American coins – first, Elva Grei; second, Curtis Mateer; currency and stamps – first, **Sioux City Stamp Club;** second, A. N. Hanten; third, **Pierre Coin Club;** foreign coins – first, J. Mortimer Pugh; American coins, junior division – first, Thomas J. Omland. The Club adopted a constitution and bylaws and re-elected the following officers: Curtis Mateer, president; Elva Frei, vice president; Mrs. Muriel Himrich, secretary-treasurer, and directors Leo Heibel, A. The **Lawndale (Calif.) Coin Club** is working on a new and worthwhile project in making a set of slides to help members learn how to grade coins. The plan is to have a slide of each type of U. S. coin in various conditions, and the members are enjoying seeing a few at a time as they are completed. Officers of the Club are: Carl Grall, president; James F. Hull, vice president; Fern S. Caesar, secretary, and William D. Voelzke, treasurer. Numismatists vacationing in Southern California are invited to attend our meetings at 2 p.m. the third Sunday monthly at 15628 Hawthorne Blvd. – FERN S. CAESAR, Sec.

avid interest and willingness to aid the Club at any time is much appreciated, and a fine example for others.

Bourse tables may be reserved by sending full payment of $10 to Melvin Stark, 4124 N. 62nd St., Omaha 4. Eugene Demko, Columbus, Neb., who has had some twenty-five years experience in auctions, will conduct the mail and floor sale of over 400 lots of choice and varied numismatic items. This Club's experience in holding conventions and shows insures an outstanding and smooth running affair in a friendly atmosphere. — EUGENE DEMKO

The August meeting of **Austin (Minn.) Coin and Stamp Club** was conducted by members from neighboring Albert Lea. The fifty-one in attendance heard some helpful and interesting suggestions from Ray Gold on "How to Buy from and Sell Coins to a Dealer." We expect to profit by his tips on such transactions. We have started a new series of meetings for the convenience of members who work nights. They are held quarterly on Sunday afternoons and are strictly informal. At the first such meeting, tables were set up for private barter and sales by members; an auction planned next time. — ELMORE J. GREENING, Sec.

The 265th regular monthly meeting of the **Orange County Coin Club** was held July 27 with President Dan Harley calling to order 133 members and guests. Bill Smith of San Francisco spoke about the auction he will conduct for California State Numismatic Association at San Diego October 28 and 29. Dr. Calvert L. Emmons called attention to the new A.N.A. membership directory and noted the large increase in members from California and the Pacific slope. It was his opinion that this will call for greater representation in the A.N.A. governing body.

Program Chairman Rime announced the program for the evening, a showing of A.N.A. visual education slides on "Currency of the Confederate States of America." Secretary Bergen acted as narrator. Complementing this program John Stoppelwerth, past president, displayed his extensive collection of U. S. currency and bank notes and gave a brief talk about them. – HERB BERGEN, Sec.

The **Heart of America Numismatic Association** held its 292nd meeting August 15 at the Elks Hall, Kansas City, with over 140 present. Don Joslin conducted a lively "Coin Quiz," which emphasized that even some established collectors neglect to keep up on the hows and whys of numismatics. President Buford Ellis announced a contest, open to any member of a local club, to select the best paper on Collecting. Prizes will be awarded on the basis of quality and completeness of coverage of the subject chosen by each author. Ralph Bondon, Co-Chairman of the Midwest Coin Show to be held November 26-27, reported that bourse reservations are pouring in and exhibit plans presage a very complete picture of numismatics. The after-meeting bourse indicated that many collectors are still "roll-happy," but that the more serious are still interested in nice single coins for their type and series collections. The 1960 small date proof sets are still hot items, but are being priced so high that many won't buy them. — DAVE HOCHBERG, Pub. Chm.

Charles E. Tuckwood presented "The Romance of Bible Coins" at a recent meeting of **William Penn Coin Club,** and illustrated the talk with colored slides and many of the coins in exceptional condition from his own collection. At a more recent meeting, A.N.A. Governor Arthur Sipe treated members to a talk on "Development of the Silver Dollar" and exhibited specimens of rare silver dollar-size coins from his collection. A successful feature of our meetings this year has been the "Numismaguess." Two old or foreign coins are exhibited with the dates covered. The one who guesses closest to the dates wins a numismatic prize. Our annual picnic in August was well attended and successful. Adam Pietz, noted Philadelphia coin designer, will talk at a fall meeting. We welcome visitors from Delaware County to our meetings the fourth Tuesday monthly at 2770 Frankford Avenue. –DONALD I. ABRAHAMS, Sec.

The **Atlanta Coin Club** celebrated its 500th meeting on August 9 at the Biltmore Hotel with a most successful auction. Ernest P. Tomlinson, member No. 3, presented a program on fractional currency. Hegedus, won third place for his display at the High Point convention in July. The August 2 *Atlanta Journal* carried a story of Atlanta collector Luther Nance finding a 1942 over 41 dime in circulation. Valued at $100, the dime came from a

bottled drink dispenser in the chain store which Mr. Nance manages. — MRS. EDWIN HARRISON, Sec.

The **Lincoln (Neb.) Coin Club** held its August meeting at the YMCA. J. J. Cotton displayed a collection of ancient Roman coins, and Bill Williams displayed a rare Saint-Gaudens double eagle. The **New Jersey Numismatic Society** held its August 11 meeting at the Military Park Hotel. J. A. Brown spoke on "Transport and Transportation Tokens." There was a discussion on defacing a coin which is sometimes done with intent to defraud. We had several unusual exhibits on the theme of "Unlisted Items," with some strange tales being told about some. The group gave small date 1960 cents a "going-over," with the consensus being that they are grossly overpriced. —JAMES A. BROWN, Sec.-Treas.

The July meeting of the **Utah Numismatic Society** was held in the Blind Center in Salt Lake City. After some discussion on the difficulty of obtaining Philadelphia Mint coins, the evening was devoted to the activities of our annual bourse night. We want to go on record as favoring continuation of the A.N.A. membership directory in a better form, even if it means charging for it or raising the dues. — C. E. CRANE, Editor, *The Utah Mintmaster*

America's First Family of Coin Albums
The Library of Coins

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by *The Library of Coins.* Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

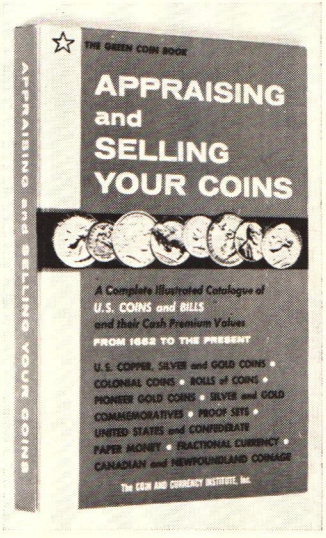

Measuring 8¼"x6¼", the volumes are low priced, sturdily manufactured, and permanently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collection in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins is the first major innovation in high grade coin albums in more than 30 years. They were several years in development and were designed by numismatists to satisfy the needs and desires of numismatists. Write for a descriptive circular on the Library of Coins.

The Green Coin Book
"APPRAISING AND SELLING YOUR COINS"

a complete illustrated catalogue of U.S. coins and bills and their cash premium values, from 1652 to the present. And the complete coinage of Canada and Newfoundland, from 1858 to the present. Edited by Robert Friedberg.

Hard Cover, Handy Size (5" x 7½"), Fully Illustrated, 176 Pages, Price $1.75

Only in the Green Coin Book will you find the wealth of coin features being published together for the first time in one superbly produced and well designed book, such as you have grown to expect from the publishers. No other similar book, past or present, can offer the variety of valuable coin information presented here so expertly, so completely and yet so inexpensively.

You get not only a complete catalogue of the standard U. S. coins from 1793 to date in all metals, denominations, dates and mints, but also the following subjects, never before assembled into one volume:

- Rolls of Unc. coins from 1934 to date.
- U. S. Paper Money from 1861 to date.
- Colonial and early American coins.
- Confederate States Paper Money.
- Pioneer Gold Coins.
- Canadian and Newfoundland Coinage from 1858 to date.

The Green Coin Book is extremely well illustrated, coinage figures are given alongside each coin and all items show the average prices paid by dealers.

The publication of the Green Coin Book, "Appraising and Selling Your Coins," is a major event in coin literature. It satisfies an obvious need and does it very well. In this day of intense numismatic activity, no one should be without this book.

For only $1.75 you get a new standard work, crammed with so much important information, that you will consult it constantly. It is truly a unique book; it is authoritative, and for what it contains, it is an incredible bargain.

SPECIAL NOTICE

Am paying up to $900.00 for Commemorative Silver Type sets, up to $2350.00 for complete sets, $850.00 for Comm. Gold sets. By selling me your set, you will get $160.00 for Hawaii, $12.50 for Bridgeport, $33.00 for Isabella, etc. Highest prices also for single coins, part sets, accumulations, any amount. Why sell for less? When better prices are paid, we will pay them.

APPROVAL SHIPMENTS

The easiest way to build up a nice coin collection, at the best values, is with my Approval Shipments. Simply send me a list of the coins you need in any series Half Cents to Gold coins, Paper Money. Or, a list of the coins you already have, if shorter. You will receive a selection of coins on approval, on which you pay $10.00 or more a month, on coins you keep. I send more coins as you make payments. You can stop shipments anytime. If you have no special series in mind, here are a few suggestions that are very popular with my customers:

TYPE SET REGULAR U. S. COINS: One coin of each different design (not dates or mintmarks), Half Cents to Silver Dollars. $6.80 best quality album to hold all these coins, with first shipment, if you want.

TYPE SET U. S. GOLD COINS: Different designs Gold Dollars to $20. pieces. Deluxe plastic holder with first shipment to hold the set.

COMMEMORATIVE HALF DOLLARS: The number one series in U. S. coins. Due to my close margin between buying and selling prices, I believe I move more Comm. coins than any other dealer. After first shipment you can decide if you want to work on the Type set or Complete set. Best Quality albums in stock for either set. Price list on request.

FOREIGN SILVER DOLLARS: Collect one silver dollar for each different country, see how many you can get. Most are still very low in price. $6.00 album with first shipment, if you want.

LARGE U. S. PAPER MONEY: Type set of different designs, disregarding complicated signatures and minor varieties. Send me list of types you have, or send for my type set Check List, on which you can cross out types you have. Friedberg Paper Money Catalogs in stock, illustrating every note, $12.50.

FRACTIONAL CURRENCY: Type set of different designs, easy to collect. Each note housed in heavy plastic holder.

OTHER COINS: A large stock always, all kinds of Cents, 2¢ 3¢ 5¢ pieces, Dimes, Quarters, Half Dollars, Silver Dollars, gold coins, CANADIAN COINS, Foreign gold coins. Good to Proof conditions. Let me know what you need.

PURCHASES: Send collections or scarcer single pieces, by Registered Mail or Railway Express. I will figure them up, and submit best offer and check. Then will hold coins for your reply. If no deal, coins will be returned prepaid. Cannot use very common circulated coins.

BOWERS COIN COMPANY

offers a quality selection of

Choice and Rare United States Coins

Thank you for your large response to our advertisement in the September *Numismatist*. This month we are again offering a quality selection of choice and rare United States coins from our large stock. All items will be sent postpaid. Satisfaction absolutely guaranteed in all respects or immediate refund.

We are now preparing the first issue of our new magazine, *The Bowers Review*, to be issued on a bi-monthly schedule. This magazine will contain news, items of numismatic interest and a large selection of United States and colonial coins from our stock. It will be printed on high quality paper and will be profusely illustrated. Send us your name and address and we will send you the first issue when it is ready.

An important offering of transitional cents:

Transitional coins are coins of a design or type struck in the year(s) before that design or type was adopted for regular circulation. In the small cent series there are a number of transitional issues. The most common of these (about 1500 coined) is the 1856 Flying Eagle cent, one of the most popular and most eagerly sought coins in American numismatics.

There are other transitional small cents as important as, if not more important than, the 1856 flying eagle cent. In most cases these other transitional coins are selling at a fraction of the cost of the 1856. Why is this so? The answer: they have not been given the past publicity accorded the 1856 cent as they are rarer and have not appeared on the market as frequently. We believe that transitional cents represent one of the most undervalued group of coins in the coin market today; consequently, we believe them to be one of the best investments. We offer a quality selection of transitional small cents, including the extremely rare 1863-L cent:

1858 Indian head cent — 1858 copper-nickel Indian head cent, obverse 1858 Indian cent, reverse with laurel wreath. Exactly like a regular issue 1859 Indian cent in all respects except the date. This coin is to the Indian cent series what the 1856 flying eagle is to the flying eagle cent series. The 1858 Indian cent is rarer than the 1856 F. E. cent (approx. 200 specimens vs. 1500 specimens). In addition the 1858 Indian cent prefaces a series of coins which lasted over fifty years 1859-1909 while the 1856 flying eagle prefaces a series which lasted only two years 1857-1858. As one of the most important coins in one of the most popular United States series, Indian head cents, the 1858 Indian cent should be an excellent investment and addition to your cent collection. We offer a Proof specimen for $450.00.

1859 rev. '60 cent — 1859 Indian cent with reverse of '60 (shield at top of reverse wreath). Approximately 700-800 pieces are known. An unappreciated rarity and an excellent investment. We offer a Brilliant Uncirculated specimen for $150.00.

1863 type of '64 cent — 1863 cent struck on a thin bronze planchet — type of 1864 and later years. About 150 to 200 pieces known. Another unappreciated rarity and excellent investment. We offer a Brilliant Proof specimen for $225.00.

1863-L cent — 1863 cent with L (for Longacre) on ribbon end. Struck on a thin bronze planchet, type of 1864-L and later years. Many, many times rarer than an 1864-L cent in Proof condition. Dr. Judd in "United States Pattern, Experimental and Trial Pieces" states that but three specimens are known to exist. The offering of this coin in an event of major numismatic significance. We offer a Brilliant Proof specimen for $3000.00.

CONSIDERING THE SALE OF YOUR COLLECTION?

Much careful thought was given during the years in which your collection was formed. The same careful consideration should be given to the sale of your collection. You want to realize the maximum price for your collection without undue difficulty.

During the past years we have handled many of the finest coins and collections to be offered for sale. These have ranged from small collections to some of the very largest. Included have been many of the greatest United States rarities.

Why have we been able to buy so many fine coins and collections? The willingness to pay a generous price is an important reason. We have always based our purchase offers on a first hand up-to-the-minute knowledge of coin market conditions. This, together with a large sales volume, has enabled us to operate on a smaller margin of profit.

Another factor of success in our coin buying is knowledge and experience. In addition to handling many collections of the regular United States series we have had extensive experience in the purchase and sale of the more diverse series — tokens and store cards, patterns, territorial gold coins, colonial coins, etc.

A third important factor is financial responsibility. We have always given prompt payment without delay. We invite you to check our professional and financial references.

When you decide to sell your numismatic holdings give us the opportunity to make an offer. There will be no obligation whatever on your part. We believe you, like many other collectors, will like the way we do business. May we look forward to the pleasure of hearing from you?

Quality Currency Offered At Reasonable Prices—It Says Here

● Having disposed of most of his great rarities, Philpott now proposes to help the average collector

Several currency collectors talked paper money with me at the recent A.N.A. Convention in Boston. They complained that offerings of my notes ("Philpott Quality") in *The Numismatist,* during the past two years, were directed toward collectors who needed rarities and had ready money to buy.

Having sold at top prices my rarest material, I am now resolved to do something for beginners and collectors of modest means. So, here are offered highest quality notes at *below* catalogue prices. These listings are directed toward those who are discouraged by the gaps in their collections they can't fill, or specimens already owned they can't better.

I was amazed at the poor quality of the currency offered at the Convention. With few exceptions the "stock" shown was beaten and ratty. Thus, new collectors can't be expected to be attracted to the paper money field, and those already in it will be disheartened when they can't locate acceptable notes.

Herewith are listed *uncirculated,* bright, new notes, duplicates from my holdings of many years. Each note is priced *below* Bob Friedberg's fine book — and, in my opinion, his quotations are proper and fair. Order one item or a dozen different notes. Send check. You will either get the currency you order *pronto,* or your check back. Maybe you should indicate substitutions on an "and/or" basis. Compare these offerings against your wants. If you are only a type collector, the time is *here* to go into "signatures" — the most fascinating of all segments of the paper money field. Or, at least, you should try to improve the condition of specimens you already own. The figures represent note numbers in Friedberg's Paper Money of the United States.

Now, please do not ask for demand notes, interest bearing notes, 1878 series of silvers, national gold bank notes, territorial national currency, coin notes, and the larger denominations. These are all gone — and at prices well above the catalogue list.

Here's hoping you will be able to fill in some of your gaps, and also better the condition of your present holdings.

ANNOUNCING—SUCCESSES SCORED BY LEADING U. S. COIN CLUBS

Current year's Canadian coin sets, etc. donated to clubs.

During the past several years more and more U. S. coin clubs have featured "Canadian Coin Night" meetings. Club officers from coast to coast have written us of the success of these meetings. In a small way, it has been our pleasure to have been of assistance. If your club wishes to receive free of charge a 1960 B.U. Canadian set of coins plus certain booklets about Canadian coins, drop us a line. There's no obligation.

KEEP COINS BRIGHT, NEW, SAFE

Sta-Brite is a scientific and efficient humidity and moisture absorber. It keeps copper, silver and gold free from corrosive deterioration caused by dampness in any form. Sta-Brite absorbs humidity and moisture like a sponge soaks up water — but it never shows indications of being wet.

One package of four units of Sta-Brite will protect two square feet of storage area. Absolutely harmless to coins. Can be used indefinitely.

4 UNIT PKG.
STA-BRITE $1.50

EASY TO USE

Useful for cleaning all kinds of coins, but particularly adapted to cleaning coins of copper or nickel.

•

EASY TO USE AND ECONOMICAL! FAST ACTION — IT ACTUALLY CLEANS IN SECONDS!

Does not add shine, but brings out natural color, including original brilliance if it is still there under tarnish or coating. Dull or dark uncirculated coins become brilliant uncirculated coins in seconds.

•

This result of years of experiment can be safely used on valuable coins to improve their appearance and increase their value.

•

On sale in many leading stores in 4-oz. bottles, with full directions, at $1.00.

•

If your dealer does not yet have it, send us $1.00 for 3-oz. bottle (enough to clean hundreds of coins) carefully packed and postpaid to any address in the United States or Canada.

•

SPECIAL OFFER TO DEALERS
Send $4.00 for six 4-oz. bottles of "CCC," postpaid.

NEW HAMPSHIRE CENT

We have recently struck copies of the famous Wm. Moulton New Hampshire cent which was pictured in the Red Book in the Colonial section. There are only two specimens in existence, one in the John Hopkins Museum and the other piece, which we discovered several years ago, is now in the hands of a well known Cleveland collector. We have never seen a copy or electro of this almost unique item. The pieces are well struck and the word "Copley" is on the reverse in small letters to distinguish it from the original. A limited number of pieces have been struck. Bronze, $5.00 each. And a few specimens in Silver at $15.00 each. We have a large stock of numismatic material. Price list free. Your wants solicited. Please include 25¢ for postage and handling on orders under $15.00.

COOL EVENINGS ARE COMING!

If you have been enjoying the "summer sunshine" October is the time to dust off your collection, and, if you collect MODERN FOREIGN COINS, to see what you have missed during the summer months.

What better way is there than to write for my new price list (a new one just ready) and get caught up on the new issues, and perhaps even fill in some gaps in your older collection. This price list is free for the asking — why not write for it now, and start the fall season right?

Special: The rare Santander (Colombia) 1902 revolutionary issue, 50¢ thin brass, Y S-3, fine $12.50; minor defects $10.00.
